WELCOME TO WILSON DESIGN COLLECTIVE

WE TURN PAPER INTO STORIES & STORIES INTO ART

Hello,

Caroline & Louise here, we wanted to quickly take this opportunity to thank you for being here.

It means more to us than we can express.

We feel passionate that art should have meaning and tell a story.... your story,

We take the utmost care to transform your memories, dreams and ideas into timeless pieces that speak from the heart.

Think of us as visual treasure hunters, whether it's a photograph, a favourite poem, or an old book full of sentiment, we gather the fragments of your life and collage them together, creating a soulful, meaningful, and entirely one-of-a-kind piece of art.

Our work is created with the eco-conscious collector and sanctuary-maker in mind. Those who value not just the beauty and craftsmanship, but also the story, sustainability, and legacy.

Caroline & Louise xx

YOUR STORY, YOUR WAY

Every bespoke collage begins with your story — and how you'd love it to be told.

Whether shared through a heartfelt chat, a favourite photo, or a few cherished keepsakes, we translate your memories into meaningful, hand-crafted art.

Some clients choose to simply talk through their story; others send a special photo, or include personal items such as fabric, letters, or lace for an extra sentimental touch.

The more you share with us, the more meaningful your collage will be — each layer of paper becomes part of your story.

Paper translated into emotion, memory, and beauty.

Throughout the creation, you are kept up to date every step of the way.

For more complex stories, we sketch out a layout of the composition for your approval before beginning, ensuring your story is told exactly as you envision.

We carefully collage and weave different elements of your story together, adding depth, texture, and personal significance.

3D elements can also be discussed on request — they add that extra-special detail that makes your piece truly unique.

Our bespoke service is personal, soulful, and unlike anything else — designed to make your memories shine in art that feels every bit as heartfelt as it looks.

OUR COMMISSION ORDER PROCESS

STEP 1

To commission your very own piece, you can start by sharing your vision for the project. Whether you know exactly what you want, or not, it does not matter; what we love about this process is that it is often an exciting collaboration of ideas.

STEP 2

Next we can decide on composition, colours and size. We love to give inspiration or sit back & listen to yours; either way we'll focus on choosing the perfect palette to complement your space.

STEP 3

We will draft up a proposal to give you a more accurate idea of what we can achieve with your budget. Once both parties are happy to proceed, we will send over an invoice for the 50% deposit, which will secure your spot on my waiting list.

STEP 4

When we are ready to start, we will send over the final design for you to approve, and get to work bringing your vision to life. The remaining 50% will be paid upon completion, prior to delivery.

F & Q ' S

DO YOU OFFER REFUNDS ON A DEPOSITS & WHEN IS THE REMAINING PAYMENT DUE

A commission deposit is non refundable as this covers initial materials and time spent on your design and palette, Planning and preparation of composition.

We require a 50% upfront fee, to secure the commission. The total fee (the remaining 50%) is due upon completion of the artwork and prior to delivery.

CAN I RETURN A COMMISSION?

A commission is non returnable. As it is a bespoke tailored art piece due to its nature we don't accept returns or exchanges for this unique service. You will be fully involved and have regular points with the development of the piece to input your thoughts and have the final approval before its shipped.

HOW SHOULD I CARE FOR MY ARTWORK?

Each piece is left unvarnished so you can enjoy the true texture and layered story within. For lasting beauty, display out of sunlight and, where possible, frame with UV- protective glass. Canvas artworks are often left in their raw state, allowing their natural texture to shine as they hang.

WILL MY ARTWORK INCLUDE 3/D EMBELLISHED DETAILS?

Possibly - We only ever include on the large canvas artworks - If it feels right for the piece. Our signature 3/D paper embellished add beautiful texture and a touch of magic, especially to larger works.

WHAT FRAMING OPTIONS ARE AVAILABLE?

All commissions are unframed. We prefer to let collectors independently frame their piece in their own way and unique style making this bespoke piece it harmoniously within their interior setting. A local framing shop is a good option for this, as they have a great selection and expertise to advise you individually

HOW LONG DOES IT TAKE TO COMPLETE A COMMISSION?

This will be discussed and confirmed before the commission commences, it does depend on the complexity of the piece but we will provide an estimated completion date. We only have certain slots with in our diary, but will do the utmost to hit your preferred date.

Absolutely - we love when clients choose to include personal paper items, fabric swatches, or meaningful snippets, a map, a poem.

Simply send us the items in the post though a secure postal service, we receive and weave them into your artwork

DO YOU SHIP INTERNATIONALLY?

If you are an international client then free shipping is not available. As an international client you would be responsible for the cost of the delivery which will be added onto the cost of the final art piece.

For UK customers, standard tracked shipping is included. Once your commissioned piece is complete, we carefully package it by hand, to ensure it arrives in perfect condition. We use tracked and insured shipping services and you'll receive a tracking number as soon as its on its way.

TESTIMONIALS

THE THINGS THEY SAY

We're honoured to have worked with so many thoughtful and inspiring clients. Each commission tells a unique story - your story- and it means the world to us, to be trusted with something so personal. Below, you'll find words from those who have commissioned us, sharing their experiences and the meaning their custom artwork now holds in their lives.

Mrs Kirsty Dawson

'I cannot recommend these guys enough.... absolute first class service, never mind the quality of the artwork. We had a collage of our doggie made, it's the perfect depiction of our fur baby, something to treasure forever. Thank you for sharing your talent.'

Mrs Rachel King

'I recently received the most beautiful special birthday present, beyond what I could imagine. A personalised collage picture of my cat, Marley. He is a big fluffy tabby cat; So much detail to capture... yet all captured so well. The materials used mimicked the fur, detail patterns and they built up to create depth and accuracy. Something I never expected from personalised art to treasure.'

Donna Lindsay Nuttall

'The Red Panda is even more beautiful in person. Your attention to detail is off the scale -love the dictionary definitions - you are so clever. I'm over the moon with him.'

OUR STORY

We're Caroline & Louise - twin sister's, artists, and co-founders of Wilson Design Collective.

With a background in textile design for some of the UK's most loved furnishing brands, we have spent over a decade crafting beautiful, meaningful designs for interiors.

But the work we do now is our most personal and powerful yet.

Born from a journey of healing, creativity, and deep connection, our art is a celebration of life's quiet beauty.

Every bespoke commission we create is rooted in storytelling- your story.

Whether it's a memory you treasure, a place you hold dear, or a meaningful phrase that captures a loved one's spirit, we bring it to life through layered collage, delicate detail, and timeless design.

Our one-of-a-kind artworks aren't just made to match a room.

They're created to honour a moment, mark a milestone, or say something words alone can't express.

We've worked closely with individuals and design professionals alike, to design custom pieces that become the emotional heart of the home-full of soul, sentiment, and beauty.

As sisters we've found strength in each other and joy in the little things.

That's the spirit we bring to every commission; warmth, care, and the belief that art can connect, comfort and celebrate.
